

SUSTAINABLE IN THE LONG RUN

Here at TAILOR we firmly believe in long-term relations with both customers and our products alike. We believe in producing classic designs and high quality functionality in an environmentally-friendly way, that lasts and lasts. We believe in long-term wear, using a minimum of resources in order to save the Earth's precious assets. Simply put, we believe in a more responsible production and consumption to contribute to as low an environmental impact as possible.

SOCIAL RESPONSIBILITY

We work closely with the manufacturers applying regular quality controls and inspections, which lead to a good collaborative effort as well as governance over the chain of production. We work in compliance with current regulations, codes of conduct and directives which place demands on employee salary conditions, regulated working hours, right of association, discrimination, etcetera, and that no child labour is allowed. We accept the following initiatives: BSCI, SA 8000, Sedex, WRAP and ETI.

ENVIRONMENTAL CONSIDERATION

Our products are manufactured in compliance with the current environmental standards of REACH. As far as possible we work with Öko-tex certified suppliers. The Öko-Tex Standard 100 is a global harmonized certification system for textile materials and goods. The certification ensures that no harmful or hazardous chemicals or other substances that are governed by law are used in the manufacturing process, or remain in the finished product. Gote David Teko/TAILOR are members of the SWEREA IVF Chemical Group, in which we receive up-to-date information concerning legislation and regulations.

ENVIRONMENTAL POLICY

TAILOR shall contribute to a sustainable and long-term environmental development by following laws and regulations, influencing suppliers, collaboration partners and by selecting environmentally responsible alternatives. Constant improvements shall be achieved using the expertise of, and commitment to, our personnel.

HOW TO FIND MY SIZE?

Start with your Body Measurement when selecting your size. The product will carry a Garment Measurement which equals the Body Measurement + range of movement of the garment.

MEN:

1. The jacket/blazer size is based on the chest measurement. Measure the circumference of the chest at the widest point whilst standing erect and looking forwards. Take care to ensure the tape measure is horizontal and does not slip down on the back. The jacket/blazer shall pinch slightly over the shoulder and leave 1cm over for a visible shirt cuff on the arm. The jacket/blazer length nowadays is to cover 2/3 of the posterior. Classic length is to cover the entire posterior. Select the jacket/blazer length according to the table above. NORMAL/LONG/SHORT/SHORT + WIDE.
2. The trouser size is based on the waist measurement. The easiest thing is to measure where the trouser is intended to sit and compare with the lining's garment measurement. The length of a trouser is a matter of personal preference. The rule is that it should not touch the floor without shoes on. The most common length is a so-called half break, where the trouser just touches the shoes.
